JASON ANG

SYSTEMS ENGINEERING | IT INFRASTRUCTURE | CYBERSECURITY

Singapore | +65 9107 7923 | jasonanqq@gmail.com | linkedin.com/in/jasonanqq

PROFILE

Cybersecurity diploma student with hands-on experience configuring firewalls, securing networks and supporting IT migrations. Proficient with Fortinet FortiGate firewalls and seeking an internship in cybersecurity or IT infrastructure.

TECHNICAL SKILLS

Systems: Windows Server, Active Directory, DNS, DHCP, Hyper-V, Microsoft 365, Sysprep

Networking: Static WAN IPs, routers, switches, NAS, file permissions, VLAN configuration

Security: FortiGate (firewall policies, NAT, VLANs, IPsec VPNs, SSL VPNs), endpoint security, incident response

WORK EXPERIENCE

SVIT PTE LTD | Part-Time Systems Engineer

Jun–Jul 2025 | Aug–Oct 2025 | Dec 2025–Jan 2026 | Mar–Apr 2026

- Configured FortiGate firewalls for customer networks, including security policies, NAT, VLANs and VPN connections.
- Created Windows deployment images with Sysprep to make workstation setup more consistent.
- Assisted with a NAS migration with 100% data integrity and zero downtime; checked folder structures and permissions.
- Configured workstation security settings and supported a Windows 11 encrypted-data migration with 100% data integrity.

SYSLOGIC PTE LTD | Systems Engineer / Part-Time Systems Engineer

Sep 2023–Apr 2024 | Apr–Jul 2024 | Dec 2024–Feb 2025

- Assisted with Lotus Notes-to-Outlook migration with 100% email retention and zero duplicate messages; supported Microsoft 365 setup.
- Designed and set up the organisation's NAS folder structure and user access permissions, helping staff access shared files according to their roles.
- Migrated IMAP email accounts to Outlook and checked mailbox access and email synchronisation after setup.
- Configured routers with static WAN IP settings supplied by ISPs and tested internet connectivity.
- Configured FortiGate firewall policies, NAT, VLANs, IPsec and SSL VPNs; troubleshot connectivity and access issues.
- Assisted with ransomware containment by disconnecting an infected device from the network to help prevent further spread.

PROJECT

Nanyang Polytechnic Golf Club Website (Mock) | Designed a mock club website with organised pages and navigation to make information easy to find.

EDUCATION

Nanyang Polytechnic | Diploma in Cybersecurity & Digital Forensics (in progress) | Apr 2025–Apr 2027

Institute of Technical Education | Higher Nitec in Cyber & Network Security | Jan 2022–Nov 2024

LANGUAGES

English, Chinese
